## THE PENSION SYSTEM

And the Administration of the Service Discussed in the

HOUSE OF REPRESENTATIVES.

sions Severely Criticised by Mr. Sayers, of Texas-World's Fair. Other Washington News.

House to-day Mr. Sayers, of Texas, discussed the pension system as effected by both acts of Congress, and the administration of the service. He cited statistics Government for pensions were \$1,105,-326,171; that the expenditures for pension for the fiscal year were \$89,131,968; that the expenditures for pensions from March 4, 1789, to June 30, 1861, throughout a period of 72½ years were \$80,738,327;
and that the excess of pension disburses,
ments for the fiscal year ending June 30,
1889, over the pensions from 1789 to 1861,
a period of 72½ years was \$8,393,641. He
stated further that the cost of the war of
1812 was \$112,912,543, and only an excess
of \$14,485,642 over the disbursements for
pensions for the last year, and that the
cost of the war with Mexico was \$97,705,860, and was \$721,600 less than the
pension disbursements of last year. He

severely criticised the administration of
the Pension office, and cited many inthe pension office, and cited many intention of the House and the country to the manner in which the pension syswho had been laggard, might be stricker

from the roll, so that a place on the roll might be evidence of loyalty, of bravery and of service to the country.

Mr. Peters said that for the first time in the history of the country the House had before it a careful and concise estimate of what the expenditure of the pension business would be during the next fiscal year. He defended the administration of the bureau and asserted there was reasonable increase in the pensions which had been made. So far as the aggregate of increase was conpensions which had been made. So far as the aggregate of increase was con-cerned, it reflected credit and not discredit upon the bureau. While he did not defend all the acts of Commissioner Tanner, he could only say that that offi-cet had followed in the wake of his predecessor, General Black. If any odium attached to Commissioner Tanner for re-rating the employes in his office it must attach in greater degree to his predecessor, for he had inaugarated the practice. Pending further debate the committee and the House adjourned.

Washington, D. C., March 18.-The World's Fair Committee of the House held what will probably be its last meeting this morning. The result of the session was a complete success for the Chicago people. Mr. Belden's proposition, which requires the Chicago citizens to to present to the committee absolute guarantee of ten million dollars fund before the bill was reported, was defeated, owing the presence of Mr. Wilson, of West Virginia. In its stead, he offered a proposition to amend the 9th section of the bill (which authorizes the Presin proposition to amend the 9th section of the bill (which authorizes the President, upon notice, that provision had been made for the grounds and buildings to announce the time when the Exposition will be held), so as to provide that he shall issue his proclamation and invitation to foreign nations whenever there has been filed with satisfuctory proofs (to him) that no less than ten million doffars has been raised or provided for by the Illinois corporation. The consideration of the bill was then completed and it was ordered to be re

to Answer a Question-Why He Would Rather Have Killed Steele Than Struck Illm

CHICAGO, March 18,-The court mar tial for the trial of Second Lientenant M. T. Steele, Eighth Cavalry, U. S. A., convened at noon to-day in Battery D Armory, Judge Advocate, Captain Arthur Murray, read the formal charge. It is alleged in one charge and two specifications that October 24th last, Lieutenant Steele used insulting language, which was prejudicial to good discipline and contrary to the proper conduct of an officer. To this charge and specificaguilty.

She came to Chicago and went to work in a restaurant, where Taylor met her. Since then, they have been living together. Taylor says she was in the habit of calting at the place where he is employed every night and waiting until he was off duty at 9 o'clock, when they would go home together. The last time he saw here was Smady afternoon. He was much alarmed Sunday night at her disappearance and last evening, on hearing of the unknown woman having been conveved to the hospital, went there and identified her.

Taylor is held by the police. He strongly protects his innocence of any complicity in her murder. The murder-ed woman's sister, a Mrs. Parks, of this city, tells the same story as Taylor about her past life. She adds that her sister was in great fear of "Major" Bingham; that he was mally in love with her and she had said she feared he would kill her if he found her. Miners May Succeed.

LONDON, March 18.—The cotton mills t Accrington, Blackburn, Bury and Bolton, are stopping work owing to the

strike. The London & Southwestern Railway Company is also suffering from the scarcity of coal. The officials have in

structed the employes to be as economical as possible in the use of fuel. One of the economics is the stoppage of all fires in the waiting rooms of the stations along the line.

It is the general opinion that the strikling migray of Great Retain will exceed It is the general opinion that the striking miners of Great Britain will succeed in forcing the masters to concede their demands for an immediate advance of 5 per cent in their wages and a further advance of 5 per cent in their wages and a further advance of 5 per cent on July 1. Many more mine owners in Nottinghamshire and Lancashire have acceded to the terms of the men. The feeling prevails that the action yesterday of the coal mine owners who, after deciding to refuse their employes' demands for increased wages, appointed a committee to confer with a committee of the men on Thursday and endeavor to secure joint action for the regulation of work and the avoidance of strikes in the future, will be productive of no results, as the men will not meet the masters, but will insist upon their full demands being granted.

LATER. Fifteen thousand miners in Lancashire and many of the strikers in other dis tricts have resumed work on terms of compromise proposed by the men. There is a general stoppage of cotton and other factories depending on coal.
